

# SMALL BUSINESS MINI PHOTO SESSIONS

WHEN: DECEMBER 2, 2019

## HOW IT WORKS

You're a small business, you have a cool product and you need photos. But being a small business means you don't have the budget for a full blown professional shoot. Or maybe you have the budget but not the time, and you need regular, visually interesting content for your social media accounts. Enter Small Business Mini Sessions. You sign up a one or two hour time block for a photo shoot. Prior to your photo shoot, we schedule a phone call and discuss the specifics of what you want photographed, (headshots? products? both?), the look and feel of those photos (clean and light? moody and dramatic? rustic and earthy?), the orientation (horizontal for web use? vertical for banners? square for Instagram?), and everything you'll need to bring to the shoot to help execute your vision. Good planning is crucial to making the most of your time.

## WHAT YOU GET

In a nutshell, you get as many photos as we can produce in the allotted time. The better organized you are, the clearer your vision is about what you want to achieve, the more we can accomplish. During your pre-shoot phone call, Clare will be able to give you an estimate of how many photos to expect, based on the nature of your session.

# PRICING

ONE HOUR SHOOT \$250
